

# CK Direct

Ventilation, Extraction, Noise & Odour Control Systems

The Plasma Clean Xtract uses ozone - a well known disinfectant and odour neutralizer - which is released directly into the kitchen ventilation canopy. Here it immediately starts to act on cooking odours, grease and smoke.

Simple to install, with low maintenance and running costs, this versatile modular solution provides affordable and reliable odour control and grease reduction in one unit, making it the perfect partner for a wide range of kitchen canopies.

There are many benefits to using the Plasma Clean Xtract over conventional UV methods, including:

- Low capital and running costs
- Simple installation and maintenance
- Compact and lightweight
- Quiet operation
- Environmentally friendly

The **compact and lightweight units** have been designed for modern kitchens, where space is at a premium, and are an ideal solution for fast food bars, pubs and restaurants.

## Xtract odours

- Affordable odour control
- Low maintenance
- Easy installation
- Low running costs
- Compact & lightweight
- Quiet operation
- Retrofit
- Environmentally friendly
